Learning is dependent on the pedagogical approaches our teachers use in the classroom. Pedagogy refers to the interactions between teachers, students, and the learning environment and the learning tasks. Effective pedagogy has led to academic achievement, social and emotional development, acquisition of technical skills, and a general ability to contribute to society. Some of the pedagogy strategies include the following: • appropriate use of whole class, small group and pair work meaningful incorporation of teaching and learning materials in addition to the textbook • frequent opportunities for students to answer and expand upon responses to questions • varied lesson activities • positive attitude towards students and belief in their capacity to learn. • We boost our academic programs with extracurricular activities. Preparing students for the future involves equipping them with the knowledge and attitude to be winners. To accomplish our vision we earnestly aim to raise high standards for ourselves, so that our students have the best possible holistic experience with us.
